**QUICKIES**

A little bit on a lot of records

GONEMAD • Planet 9 • 896 Records • This disc rocked my sorry ass all the way into next week. This is super heavy, super crunchy, super thrashing cool. Metal funk at its best; with a definite Method 51 or Stuck Mojo feel, these 5 dudes throw out some of the tightest, most listenable heavy sounds around. They sound like Pantera and James Brown in a jam session. This has my vote as one of the best of 1999.

Reviews of Unsigned, Newly Signed and Independent Label Bands

Gone Mad, Planet 9 (© 1999 896 Records)

Hailing from Palm Beach County, Florida, Gone Mad toss a musical salad consisting mainly of Metallica-esque fuzz-metal and Korn-ish hardcore rap, with a dash of extremely tongue-in-cheek neo-swing that's sure to make Big Bad Voodoo Daddy blush. The diverse lyrical themes include anger ("Knuckledragger"), contempt ("Another Fool"), recrimination ("Bored Games"), and guilt ("Wreckognize"). It's no Disney movie. J.C. Dwyer's drumming will be familiar to fans of West Palm Beach rockers Raped Ape (who later changed their name, God knows why). Visit Gone Mad online at [www.gonemad.com](http://www.gonemad.com).

GONEMAD - Planet 9  
(896 Records)

These 5 guys from South Florida (1 big plus!!!) did a successful merger of metal, hardcore, rap, rock and funk. You see, not typical for Daredevil. But they did their job excellent and spread good vibrations. And that's the spirit of the age!!!!

And they aren't less than the gigants (old) Sugar Ray, Korn.....

With a lot of radio-airplay they will get a chance!

I like Gonemad, but i like Korn too.... (can i say that on a stoner mag....?) – (NO! – Peter)

Not typicANI, NO RATIG!!!!!!

And here's the way to the
